

Rafael Verdi de Freitas

Data Engineer / Data Science / Analytics Engineer

Belo Horizonte, Brazil — Remote (Americas time zones)

rafaelverdifreitas@hotmail.com · linkedin.com/in/rafael-verdi-de-freitas

PROFESSIONAL SUMMARY

Data Engineer / Data Science / Analytics Engineer with 6+ years of experience in cloud data platforms, automated pipelines, fraud prevention, and analytics for banking institutions and digital-asset platforms. Focus on data engineering, automation, MLOps, fraud analytics, and data quality.

EXPERIENCE

Lead Engineer — Sapiens Management & Technologies

Nov 2025 – Present · Belo Horizonte, Brazil

- Lead data consultancy engagements across cloud platforms (AWS, dbt, Snowflake, Kubernetes), delivering data and analytics solutions for clients.
- Drive ML/MLOps initiatives and automation to improve delivery and reliability of data products.
- Own end-to-end delivery and stakeholder alignment, translating business requirements into technical execution.

Analytics Engineer / Data Consultant — Kraken

Nov 2025 – Present · Brazil

- Develop and maintain data and analytics solutions, supporting business decisions with reliable and accessible data.
- Automate recurring reports and operational processes, reducing manual effort and improving delivery reliability.
- Improve data reliability and quality across analytics workflows, collaborating with partner areas to translate requirements into deliverables.

Data Scientist / Data Analytics — Banco Mercantil

Nov 2019 – Nov 2025 · Belo Horizonte, Brazil

- Progressed from intern and fraud analyst to Data Scientist over six years within the fraud-prevention organization.

- Automated ~80% of recurring processes and delivered an end-to-end fraud-prevention solution.
- Built and maintained pipelines and models, leveraging ML, Docker, and Kubernetes to accelerate case resolution by 30%+.
- Monitored transactional activity with anomaly detection, and built dashboards/KPIs for fraud analytics.
- Applied AI/MLOps practices to production fraud-detection workflows.

Founder & Lead Engineer — Corporate Gestão Empresarial

Aug 2018 – Present · Greater Belo Horizonte

- Founder and lead engineer providing technical strategic consulting for companies.
- Apply AI, automation, and data to improve business processes and support decision-making.
- Bridge commercial stakeholders and engineering, translating business needs into technical roadmaps.
